

Comprehensive Plan Equity Crosswalk - Overview

The Framework element of the Comprehensive Plan sets forth a vision for an equitable District. It states that: “Equity exists where all people share equal rights, access, choice, opportunities and outcomes, regardless of characteristics such as race, class, or gender.” It also suggests that equity is realized through targeted actions and investments to improve outcomes for those who face the worst health, social and economic challenges.

The Framework also provides a vision for racial equity in particular, stating that: “the District achieves racial equity when race no longer determines one’s socioeconomic outcomes; when everyone has what they need to thrive, no matter where they live or their socioeconomic status; and when racial divides no longer exist between people of color and their white counterparts.”

Additionally, the Framework gives direction for examining equity across a spectrum of issues, stating that “Addressing issues of equity in transportation, housing, employment, income, health, education, and socioeconomic outcomes through an equity lens will allow the District to address systemic and underlying drivers of systemic inequities.” Moreover, the Framework Element states that, “we apply a racial equity lens when those most impacted by structural racism are meaningfully involved in the creation and implementation of the institutional policies and practices that impact their lives, particularly people of color.”

OP has identified 97 policies and actions throughout the Comp plan that explicitly focus on advancing equity, and present these in the form of an “equity crosswalk”. When implemented altogether these policies hold promise to deliver on the goals of equity established in the Framework Element and to make a tangible difference in the lives of DC residents who have yet to reap the benefits of the growth and change in the city.

<p><u>Policy: Areas of large tracts and corridors where future analysis is anticipated to plan for inclusive growth and climate resilience. Boundaries shown are for illustrative purposes. Final boundaries will be determined as part of the future analysis process for each area.</u></p> <p><u>In certain locations, planning efforts will be undertaken to analyze land use and policy impacts and ways to capitalize on, mitigate, and incorporate the anticipated growth. Current infrastructure and utility capacity should be evaluated against full build-out and projected population growth. The planning process will target issues most relevant to the community that can be effectively addressed through neighborhood planning. Planning analyses generally establish guiding documents, such as Small Area Plans, Development Frameworks, Retail Strategies, or Design Guidelines. Areas anticipated for future planning analysis include the following:</u></p> <ul style="list-style-type: none"> ● <u>New York Avenue NE corridor;</u> ● <u>Upper Wisconsin Avenue NW corridor;</u> ● <u>Upper Connecticut Avenue NW corridor;</u> ● <u>Foggy Bottom/West End;</u> ● <u>Benning Road corridor;</u> ● <u>Poplar Point;</u> ● <u>Congress Heights;</u> ● <u>North Capitol Crossroads— Armed Forces Retirement Home; and</u> ● <u>RFK Stadium.</u> <p><u>For areas within the 100- and 500-year floodplain, future planning efforts are anticipated to promote resilience to flooding for new development and infrastructure projects, including public capital projects. Resilience focus areas will explore watershed resilience to encourage the implementation on a neighborhood scale, as well as site-specific solutions, design guidelines and policies for a climate adaptive and resilient District. Watershed resilience analysis areas include the following:</u></p> <ul style="list-style-type: none"> ● <u>Georgetown;</u> ● <u>Federal Triangle;</u> ● <u>Hains Point;</u> 	<p>LU-1.1.1: Future Planning Analysis and Resilience Focus Areas</p>

<p>ARTS AND CULTURE</p>	
<p>Goal: The overarching goal for arts and culture is: <u>to facilitate a cultural environment in Washington, DC that is inclusive, equitable, and accessible. This type of cultural environment will increase artistic opportunities for individual and collective cultural development by supporting cultural programs and learning experiences in the District that inspire a vibrant cultural life for all residents. This element supports physical cultural infrastructure that advances arts and culture through exchanges that elevate art and cultural works beyond passive objects to active exchanges.</u> Support and encourage arts and cultural venues, programs and learning experiences in the District of Columbia that inspire a vibrant cultural life for all segments of the population. Enhance the city's diverse artistic and cultural traditions through decisions affecting the physical environment. 1401.1</p>	
<p>Policies/Actions</p>	<p>Chapter Citation</p>
<p><u>Policy:</u> Reinforce and elevate existing cultural anchors, practices, and traditions in communities undergoing significant demographic change. Such efforts should reflect the history and culture of established communities in these neighborhoods and also embrace new residents. In addition, support cross-cultural programming that fosters a shared understanding of Washington, DC's history and culture among all residents. 1404.12</p>	<p>AC-1.2.7: Mitigate Cultural Displacement</p>
<p><u>Policy:</u> Access <i>Arts Awareness for Special Populations Groups</i> Provide accessible arts information resources to special-needs populations including persons with disabilities non-English speaking residents, non-English speakers, older adults, and other vulnerable communities and populations visually and hearing impaired populations. 1416.5</p>	<p>AC-4.4.3: Arts and Humanities Education Through Inclusion, Diversity, Equity, and Access</p>
<p>AREA ELEMENTS</p>	
<p>The Comprehensive Plan's Area Elements provide additional place-based policies to guide development and redevelopment within the Land Use Change Areas. The Area Elements also include the desired, detailed mix of uses envisioned in that geographic area of the city.</p>	
<p>CENTRAL WASHINGTON</p>	
<p>Policies/Actions</p>	<p>Chapter Citation</p>
<p><u>Policy:</u> It is important to keep Central Washington a mixed-income community and avoid the displacement of lower-income residents. Preserve Central Washington's existing low- to moderate-income housing, including public housing, Section 8-housing (-both contracts and vouchers),- and other subsidized units. <u>The District has taken a proactive approach to preserving affordable units at the Museum Square, Golden Rule, and other Central Washington Area redevelopment sites. The District should continue to expand the number of affordable units through land disposition with affordability requirements and through the use of zoning and other regulatory incentives.</u>While this will be expensive, It is important to keep Central Washington a mixed income community and avoid the displacement of lower income residents. 1608.6</p>	<p>CW-1.1.5: Central Washington Housing Diversity</p>
<p>FAR NORTHEAST SOUTHEAST</p>	
<p><u>Policy:</u> Encourage neighborhood-scale and site-specific projects that decrease the vulnerability of people, places, and systems in Far Northeast and Southeast to climate crises. 1709.4</p>	<p>FNS-1.2.3: Neighborhood Climate Resilience</p>

<p><u>Action:</u> Connect the neighborhoods of the Far Northeast and Southeast Area to the Anacostia River, particularly through the redevelopment of Anacostia Park, implementation of the Anacostia Waterfront Initiative (AWI), and trail improvements. Climate Ready DC has identified areas along the Anacostia River, such as Mayfair, Kenilworth, Eastland Gardens, and Parkside, as Priority Planning Areas. An interdisciplinary approach will showcase how resilience to climate crises can be achieved. 1709.22</p>	<p>FNS-1.2. G: Connect to the Anacostia River</p>
<p><u>Policy:</u> The District, through its membership in a worldwide initiative has identified Kenilworth Park as one of two pilot locations in Washington, DC, for a place-based effort to showcase an interdisciplinary approach designed to mitigate the challenging effects of climate change and growth. Kenilworth Park and its surrounding neighborhoods are some of the most at-risk areas for flooding in the District. Designation as a pilot location will create a community-centered strategy, resulting in lowering the risk and negative effects of flooding. 1718.10</p>	<p>FNS-2.8.6: Kenilworth Park Resilience Strategy</p>
<p><u>Action:</u> Include the Kenilworth-Parkside neighborhood in the Small Area Plan to be developed for the Minnesota Benning and Deanwood Metro station areas. <u>Explore a Small Area Plan for the neighborhood between Kenilworth Avenue and the Anacostia River. <p>Policies/Actions</p>	<p>Chapter Citation</p>
<p><u>Policy:</u> Attract additional supermarkets; a variety of food retail; sit-down, family-style restaurants; full-service gas stations; and general merchandise stores to the Far Southeast/Southwest. The area’s larger commercial sites should be marketed to potential investors, and economic and regulatory incentives should be used to attract business, especially grocery retail, farms, and other fresh food producers to provide for equitable opportunities to access food options. The upgrading and renovation of the area’s existing auto-oriented shopping centers is strongly encouraged to reflect Washington, DC’s community development and sustainability goals. 1808.8</p>	<p>FSS-1.1.7: Grocery Stores and Services</p>
<p><u>Policy:</u> Leverage the District’s ongoing climate preparedness and adaptation work to encourage the implementation of neighborhood-scale and site-specific solutions for a more resilient District. This includes the development of actionable policies and projects that decrease the vulnerability of people, places, and systems in the Planning Area to climate risks despite changing or uncertain future conditions. 1808.16</p>	<p>FSS-1.1.15: Neighborhood Resilience</p>
<p><u>Policy:</u> Encourage the use of climate-resilient and energy-efficient design practices for new residential developments, especially in the construction of affordable housing units. These practices include cool and living roofs, solar shading, natural ventilation, and other passive cooling techniques that will reduce the impacts of extreme heat events on the area’s most vulnerable residents. They also include the use of green infrastructure methods that can reduce the urban heat island effect and potential flooding risks by preserving or expanding green space, tree cover, and other natural features. 1808.17</p>	<p>FSS-R.1.1.16: Resilient Housing</p>
<p><u>Policy:</u> Sustain and support capacity and equity in existing health care facilities in Far Southeast/Southwest and develop additional health care and social service facilities to respond to the urgent unmet need for primary and urgent care, pre- and post-natal care, child care, youth development, family counseling, and drug</p>	<p>FSS-1.2.1: Health Care Facilities</p>

and alcohol treatment centers. Pursue co-location or consolidation of these facilities with other public facilities where possible; and where the uses are compatible. 1809.1	
<u>Policy: Leverage Washington, DC’s climate adaptation and flood risk reduction efforts and implement neighborhood-scale and site-specific solutions for flood resilience in the Potomac River neighborhoods adjacent to Blue Plains and the Joint Base Anacostia-Bolling.</u> 1809.7	FSS-1.2.7: Far Southeast/Southwest Neighborhood Climate Resilience
<u>Action: Develop actionable strategies and projects that decrease the vulnerability of community members, housing and community facilities, and local businesses and community-serving institutions from both current flooding risks and future risks due to climate change.</u> 1809.8	FSS-1.2. A: Far Southeast/Southwest Climate Resilience
<u>Policy: Identify and support greater investments to make the existing public facilities in the Far Southeast/Southwest Planning Area more resilient to the anticipated effects of extreme heat, floods, severe weather, and health events. This includes incorporating necessary upgrades or retrofits to the improvement or reconstruction of schools, libraries, child care centers, recreation centers, health clinics, and other facilities that provide services to residents at a higher health risk and vulnerable to climate risks and social inequities.</u> 1808.18	FSS-R.1.1. <u>Policy: Incorporate climate resilience measures into the rehabilitation of existing and creation of new affordable housing located in the Lower Anacostia Waterfront/Near Southwest Planning Area to protect these units against current and projected future flood conditions.</u> 1907.7	AW- 1.1.6: Resilient Affordable Housing
<u>Policy: Ensure that Southwest remains an exemplary model of equity and inclusion for all races, ages, abilities, and income levels and enhances all residents’ well-being. Support and encourage affordable and equitable access to housing with a range of housing types to support families, older adults, single persons, persons with disabilities, and artists. Encourage more inclusive options for transit and more accessible public realm design.</u> 1914.7	AW-2.5.4: An Equitable and Inclusive Southwest Neighborhood
<u>Policy: Encourage the adoption of sustainability measures to support outstanding environmental performance, energy efficiency, stormwater management, and healthy living. New developments in Southwest that are vulnerable to flooding and future sea level rise should incorporate flood protection in building and site designs.</u> 1914.10	AW-2.5.7: Southwest Sustainability and Resilience
<u>Policy: Redevelop outdated public facilities and underused publicly-owned land for development that delivers high-quality design and community benefits. These District properties include key sites adjacent to M Street SW and Half Street SW and are the current locations of the Department of Motor Vehicles (DMV), Fire and Emergency Medical Services (FEMS), and the Metropolitan Police Department (MPD). Future developments at these sites should consider public-private opportunities for joint development and co-location of District government uses. Land use changes recommended in the Small Area Plan should be achieved through the PUD process and conform to the design guidelines, affordable housing goals, and broader recommendations of the Small Area Plan.</u> 1914.12	AW-2.5.9: Southwest District-Owned Parcels

<u>Action:</u> Redesign Lansburgh Park to become a safer, more accessible central park for the Southwest community. Create a signature design and beautiful park space that serves as a centerpiece for redevelopment of surrounding properties like the Greenleaf complex and the Southwest government cluster. Any future design also should enhance community resilience by helping to address and manage flooding issues. 1914.16	AW- 2.5.B: Lansburgh Park
<u>Policy:</u> Design public and private infrastructure, buildings, streets, and park spaces for climate adaptation and flood risk reduction. Buffer the Buzzard Point neighborhood against current and future climate threats through model resilient development. 1915.7	AW-2.6.4: Buzzard Point Resilience

<u>Action:</u> Continue Pursue redevelopment of Park Morton as a “new community”, replacing the existing public housing development with an equivalent number of new public housing units, plus new market-rate and “workforce” moderate-income housing units, to create a new mixed-income community. Consider implementing this recommendation in tandem with plans for the reuse of public land on Spring Road NW. Ensure that every effort possible is made to avoid permanent displacement of residents if this action is followed. 2011.14	MC-2.1. E: Park Morton New Community
NEAR NORTHWEST	
Policies/Actions	Chapter Citation
<u>Policy:</u> Protect Conserve the existing stock of affordable housing in the Near Northwest Planning Area, particularly in the Shaw and Logan Circle neighborhoods. Sustain measures to avoid displacement, such as tax relief and rent control, and to encourage the production of new affordable housing throughout the community. by bringing to bear new measures to preserve and produce affordable housing in a way that advances fair housing goals and minimizes displacement. 2108.8	NNW-1.1.8: Affordable Housing
<u>Action:</u> Implement the DC Housing Preservation Strike Force recommendations for Develop a strategy to renew all affordable housing the expiring project-based Section 8 public housing contracts within the Shaw area and beyond, recognizing the vulnerability of these units to conversion to market rate housing. Consider the redevelopment of these sites with mixed-mixed income projects that include, at a minimum, an equivalent number of affordable units, and additional market rate units, and measures to avoid displacement of on-site residents. 2111.15	NNW-2.1.D: Expiring Public Housing Contracts

<p>should be taken to minimize displacement and to create homeownership opportunities for current residents. 2408.5</p>	<p>in Public Housing</p>
<p><i>Policy:</i> Create new opportunities for small, local, and minority businesses within the Planning Area, and additional community equity investment opportunities as development takes place along New York Avenue, Bladensburg Road, Benning Road, West Virginia Avenue, and around the Metro stations. 2409.5</p>	<p>UNE-1.2.5: Increasing Economic Opportunity</p>
<p><i>Policy:</i> Recognize the Anacostia River and the land along its banks as an essential and integral part of the Upper Northeast community. Improve the connections between Upper Northeast neighborhoods and the Anacostia River through trail, path, transit, and road improvements, linking the Gallaudet University campus as an institutional open space with the adjacent open spaces to the east, including the Mt. Olivet Cemetery and the National Arboretum, and extending to the Anacostia River and Riverwalk. Opportunities also exist for connections between the Gallaudet campus and the network of open spaces to the west, including the Metropolitan Branch Trail and the Burnham Spine to create a green spine through Northeast DC for bicycle and pedestrian movement from the Mall/Union Station area to the Anacostia River and back down to the Mall along the proposed Anacostia River Walk. Provide amenities and facilities in the planned waterfront parks that meet the needs and promote the resilience of Upper Northeast residents. 2409.6</p>	<p>UNE-1.2.6: Connecting to the River</p>

Note: Specific reference to equity language is not present in every Area Element. However, the equity-forward policies and actions embedded in the Citywide Elements also apply to all the planning areas of the District.
